# SCHWING S 36 X

India's favourite pump in the 36 meter class, the SCHWING S 36 X is now available in 2 pumpkit options.

Mountable on all 3 axle chassis of all leading truck manufacturers, the pumps prime mover is the truck's engine itself. This reduces the weight of the pump and helps save fuel. This PTO system reduces operating costs and enables easy maintenance. The unique design of the SCHWING super X outrigger offers more space for storage of accessories. ### The Vector Control

Using this unique system operators can communicate with this machines, check operation data and collect machine state data in real time.

The radio remote control with its intuitive keys and warning systems helps operators to quickly learn to operate the pump.

The rock valve combines with the open hydraulic circuit reduces operating costs while enabling concrete pumping of higher pressures.

The repeated filtering and cooling due to the open hydraulic circuit reduces heat generation and component wear saving money in the long run.
