Introduction

Dear Sir / Madam,

In the year 2021 you can further strengthen the competence and safety of your employees in handling our machines and plants with our training programs

In small groups, our experienced trainers teach important topics such as hydraulics, electricals, sensor technology, economical working, safety at work and maintenance. Your employees can apply the practical tips directly in their daily work and thus work more efficiently and safely. With the certainty of knowing and mastering his machine, a machine operator can react with confidence in the most demanding situations, even in difficult environments.

In our training calendar 2020 we have summarized detailed information on the individual training courses for you.

If you prefer a tailor-made training programs that is optimally tailored to your needs, this is no problem either. We will put together an individual training programs according to your wishes and needs and prepare a non-binding offer at our fair conditions. Individual training programs can be held in our production plants in Irungatukottai near Chennai or directly at your premises.

You can reach us by mobile at +91 91766 06120 or by e-mail at training@schwingstetterindia.com. We are happy to help!
